MOTORCYCLE TANK EXPLODES: MAN HURT

Machine-Motorevcle Demolished.

Donglas, Arir., May 31.—C. E. Wil-liams was dangerously burned as the result of the explosion of the gasoline. result of the exposion of the guarantees tank on his motorcycle. He had invited some friends to his home to witness an exhibition of the speed of the new machine while it was standing. He was seated on the saddle when the explosion occurred, which blew him into the air and completely demolished the motorcycle, setting fire to the house which, however, was soon extinguished. Williams is frightfully burned about the face, chest and arms.

DAWSON IN NATIONAL WINS 500-MILE RACE

Close Behind De Palma's Mercedes Up to the 198th Lap, He Gains Lead, and Wins in the Last Stretches. De Palma Had Engine Troubles-An Ideal Day For the Event-Few Accidents.

Speedway, Indianapolia, Indi, May 21.—Joe Dawson, in a National, won the second international 500 mile sweep-striker automobile ruce here yesterday. He came up only six laps behind the Mercedos our of Raiph de Palma, who had gnaine trouble after leading all the way from the start up to the 1981 lap. Dawson's time wag 621:06. Harroun won last year in 6:47:08, and other world's records were broken at various stages of the race, which was run in ideal weather and wilhout and serious accidents.

Teddy Tetrikif's Flat came second. The Sinte company protested the awarding of third place to Hughie Raightes' Mercer, contending their carrives any charles Merc, whose cutting turned over his the back stretch when a rear whose cretical section. Twenty-four care started, all being the pick of American, German, English and Italian factories, Rewson drove a steady race, holding second place and starty race, holding second place and facilitating factories, Rewson drove a steady race, holding second place most of the time at the 50th lap, Just being the home stretch. The thousands of spectators cheered the race, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it a good omen, after the ruce, said he considered it agreed to lass was a specified. The care was the ruce in front wheel of his whate car, Joe Horizon has a starty race, holding second place and willing him for the home stretch. The thousands of spectators cheered the race, said he considered it a good omen.

Dawson averaged 73 c miles an hour as compared with 74.91 miles an hour as compare Speedway, Indianapolis, Ind., May because his engine failed him at the property of the Race.

WILL BE MADE AN ANNUAL OBSERVANCE

Movement Started For Memerial Day Exercises Annually Hereafter.

Memorial day, 1912, the first real observance of the day, will be the start of an annual celebration which will include the two verteran organizations, the G. A. R., and Confederate Veterans association. Already plans are being made for the 1912 Memorial day. The parade feature will be elaborated upon and the fort troops and bands will be asked to participate. The auto paratie of the veterans of the two armies will be included in this parade and a program of speaking arranged for under the trees at Evergreen.

Credit is given to Mrs. T. J. Jones, who conceived the plan for having a more elaborate observance of the day than has been held in the past. She arranged for the loan of the automobiles and flowers and took personal charge of the departing committee at the cometeries. The commanders of the G. A. R. and U. C. V., organizations say there were more veterans at the service Thursday than have ever turned out for a similar service and they were delighted with the arrangements for their convenience. of an annual celebration which will

Juan Dozal, who played a prominent part in the Maderista revolution nent part in the Maderista revolution in this section and was during that campaign the chief of staff to Gen. Pascual Oronco, has been killed in the Chocalate canyon, according to a recent issue of "El Imparcial." According to the report he was killed by a Lieut Fiam Domi, when the present revolution broke out turned against Oronco, who had always been his close friend and remained loyal to the Madero government.

Interesting Papers on Subject Read at Meeting of National Association.

Washington, D. C., May 31,-"The isiting nurse and tuberculosis control," "The New Jersey tuberculosis exhibit," "The East river homes foundation," and "the establishment of a home hospital in New York city," were the subjects of papers read at this morning's session of the National Association for the Study and Prevention of l'uberculosis, now in annual conference

Tuberculosis, now in annual contribute.

The paper on the New York home hospital was read by John A. Kingsbury, general agent of the New York Association for the Improvement of the Condition of the Poot.

The Home hospital, he said, is a new experiment in the home treatment of combined poverty and tuberculosis. Its purpose is, first, to give adequate and wise relief to a number of needy families in which there is tuberculosis; and, second, in so doing, to find out tenement, under wise medical direction and constant nursing oversight, with adequate relief and freedom from undue worry, ample fresh air and sunshine, and room for reasonable segregation—to prevent the spread of tuberculosis from the sick to the well members of the family, and particularly to protect the children from infection, to cure some of those in the early stages of the disease, and to afford considerable improvement to patients whose cases are only moderately advanced.

Twenty-three Families Chosen.

or the disease and to anore considerable improvement to patients whose cases are only moderately advanced.

Twenty-three Families Chosen.

The hospital has been established in a section of the East River homes, pepularly called the 'Vanderbilt tenements' Twenty-three families have been chosen for the experiment, which is to cover three years. Every effort will be made to care for the patients in their homes as well as they could be cared for in hospitals. While the association will hear much of the expense, the able bodied members of the 2s families will also be obliged to contribute to their support. The association estimates the expense at about \$25,000 a year.

"The experiment was launched on Auril 1 and at the present time the 2st families have been installed, and the outlook for success is very premising. Control of Infection.

Miss Lillian D. Wald, director of the Henry street settlement, discussing the visiting nurse and her relation to tuberculosis control, said that successive steps taken in the anti-tuberculosis campaign, such as hospital care for advenced cases, segregation of dangerous ones, curative treatment for those in early stages, prevention of the development of the disease by the care of inciplent cases, and preventoria for predisposed children—all lead to the ultimate basic problem, that the control of infection must be accomplished by vigilant personal work of individuals to prevent germ growth and multiplication.

"Large collective schemes of control."

so the opening in towns of from ski to ten thousand population. We have taken pictures of dirty back yards interiors where many people sleep, dirty playgrounds, etc., for use in the local campaign. This portrayal of local conditions with the camera has been made offective in obtaining immediate results. In one place, for example, before the exhibit had been going two days there was a strike of Italian glassworkers in one of the factories because we showed a fifthy garbage heap in a front dooryard, which the owner of the factory should have cleaned up."

Speaking on the East River homes foundation. Dr. Henry L. Shively, of New York, said in part: "Through the generasity of Mrs. William K. Vanderbitt, sr. a sories of modern hygienic tenements have been constructed in New York especially for the purpose of providing the best features of sanator-trom which they have just ally does be commend the team Stockton. The character of the clothes you buy isn't wholly a matter of the responsibility of the firm that makes them, or the store that sells them; you, yourself, are an important factor in correct selection. A combination of good

making, honorable selling and intelligent selection, results-always-in -our being clothed as well as any man; correctly; economically. This establishment has provided every link in the chain of satisfaction; it features clothes from The House of Kuppenheimer because the responsibility of this maker is absolute; their styles unfailingly correct; their fabrics worthy; their values

right. To this assurance is added our store service in seeing to it that you select only such clothes as best fit your purpose, your personality and your purse. These three essentials of good clothes you'll find here in their fullest realization.

The Spring showing comprises every style that's wanted; every fabric that's good.
